eTwinning project "Come and Visit My City"
2015-2016

I'm from Athens
From a land of sunlight and twelve gods
I'm so proud
I'm from Athens

I feel my great ancestors' heart
I touch crystal clear sea waters
I see beautiful landscapes and blue sky
I'm from Athens

I cry watching the Greeks leave their country
I worry about the future
I hope to always see the crystal clear water of the Mediterranean
I dream of a world where all the hunted people find peace at last
I'm from Athens

I'm from Ostrava
From the city of sport and science
I'm so proud
I'm from Ostrava

I can feel fresh air
I can touch spring flowers
I can see the blue sky
I'm from Ostrava

I cry for homeless people
I worry about Europe
I hope that we can live in peace
I dream of a world where people love each other
I'm from Ostrava

I'm from Sardinia
From a land of sea
I'm so proud
I'm from Sardinia

I feel the breeze of the wind
I touch the sand
I see the sunset
I'm from Sardinia

I cry salt tears
I worry about my country
I hope that the sea's heart keeps beating
I dream of a fairer world
I'm from Sardinia

I'm from Marseille
From a land of cicadas and olive trees
I'm so proud
I'm from Marseille

I feel the Mistral wind in my hair
I touch the white limestone of the creeks
I see the boats floating on the sea
I'm from Marseille

I cry tears of sorrow
I worry about our wonderful landscapes
I hope fish will be plentiful
I dream of a world where the sea is not polluted
I'm from Marseille

We're from Europe
From a land of great History
We're so proud
We dream of a world where people live in peace and harmony
We're from Europe...
