

OUR COMMON STORY:

A COSMOPOLITAN PLANET!

BY PUPILS FROM:

GREECE, ITALY, GERMANY,

CZECH REPUBLIC, FRANCE.

eTwinning project “Make New European Friends”

2014-2015

EPISODE 1

Once upon a time, a comet fell from the sky. The comet fell with extreme power, so it broke into five pieces. Those pieces fell into five countries: Italy, Germany, Czech Republic, France and Greece. Where the pieces fell, five trees magically grew suddenly in one night and their fruits became extra sweet, juicy, tempting and MAGIC!

Five kids, one from each country, ate one of those fruits.

Italy: Federica ate an orange from the orange tree and acquired a super power: she could move objects with her thought!

Germany: Wolfgang ate an apple from the apple tree and became invisible!

Czech Republic: Anna ate a pear from the pear tree and acquired another super power: she could throw laser beams from her eyes!

France: Jean-Paul ate a cherry from the cherry tree and ... he could fly!

Greece: Kostas ate an olive from the olive tree and ... he became very very strong: he could do anything he wanted!

Five kids, far away from each other, five different powers, but one common goal: to protect our planet.

EPISODE 2

In the meantime, far away, a group of aliens arrived from another galaxy, and they wanted to enslave our planet. Having a highly advanced technology, they wanted to hypnotize the population of Earth using the 'Hypnotis 5000'.

Each of the 5 Fantastic guys fought the terrible aliens, but all of them failed. They began to understand that they had to join their amazing powers!!! They met at Federica's home to organize a plan to defeat the invaders.

The morning after the fantastic guys effected their plan:

Wolfgang became invisible and entered the house of the boss of the aliens, stole the

Hypnotis 5000 and ran away.

Besides Federica, Jean-Paul, Anna and Kostas attempted to destroy the aliens, but every time that one of them was killed, he multiplied.

EPISODE 3

Then Federica, Jean Paul, Anna and Kostas ran away to the Acropolis where they met Wolfgang with the "Hypnotis 5000". They told Wolfgang that the aliens had multiplied and they needed a new plan.

All had the idea that the new plan had to be peaceful! At the same time the aliens' boss was very angry. He shouted: "The five kids stole the Hypnotis 5000! I want it back!" So all aliens went to the Acropolis.

Meanwhile, Anna destroyed the Hypnotis 5000 with her laser beams! When the aliens came, they showed the broken Hypnotis 5000 and said: "We want peace! Let's live together in your galaxy and on our Earth!"

Suddenly a hologram appeared! In it the boss said: "Noooo! Never! The Earth is mine!" When the aliens listened to the message in the hologram, they...

EPISODE 4

They became very irritated and aggressive and they wanted to attack our five kids. They looked very scary. However, our little heroes were very brave and didn't run away. Naturally, they tried to use their magic power to keep aliens away.

When Jean-Paul, Federica, Anna, Wolfgang and Kostas joined their powers into one point, something like an invisible wall appeared and aliens were left behind it. So that time kids had some extra time to think how to get rid of the aliens. They asked scientists for help, as they knew they wouldn't be able to keep the invisible wall for a long time. And aliens were still trying to get over the wall or break it.

Our five kids couldn't see the boss of aliens so they were afraid of where he could appear. At first scientists had no idea how to help the kids and all the planet. However, during the night they got an idea to prepare a new mixture which....

EPISODE 5

... made people nice and peaceful. It took them two days to prepare it, and then, one morning, the mixture was ready.

They dropped it over the aliens behind the invisible wall and it worked - the aliens turned into friendly creatures, except their boss who wasn't there. He appeared somewhere else and there was a terrible fight between our heroes and himself.

The battle lasted for nine days. At the end of the ninth day, our five heroes combined all their superpowers and defeated the boss.

Today, aliens and earthlings live in peace on our planet and earthlings can freely circulate from one planet to another. Aliens and earthlings even got married and had children together, half human half alien! Finally, the aliens' planet was renamed "*FeWoAn.JeKo*", after our five heroes' names: Federica, Wolfgang, Anna, Jean Paul, Kostas.

THE END
